DAILY ENCAMPMENT NEWS 7/10/26 EDITION

ADAVANCED LEADERSHIP COURSE

The Advanced Leadership Course (ALC), is the other training school at Encampment this week. After you graduate from Basic Leadership Course (BLC), you may come back to Camp Ripley next summer for ALC! This course offers all you need to know to become a better teammate, cadet, person and most importantly a better leader. Most Cadet Staff HIGHLY recommend attending ALC before choosing to staff an Encampment. The Advanced Leadership Course has many opportunities to learn advanced drill work, teamwork, and much more! If you have any questions, please reach out via your chain of command.

LOCKHEED MARTIN F-22

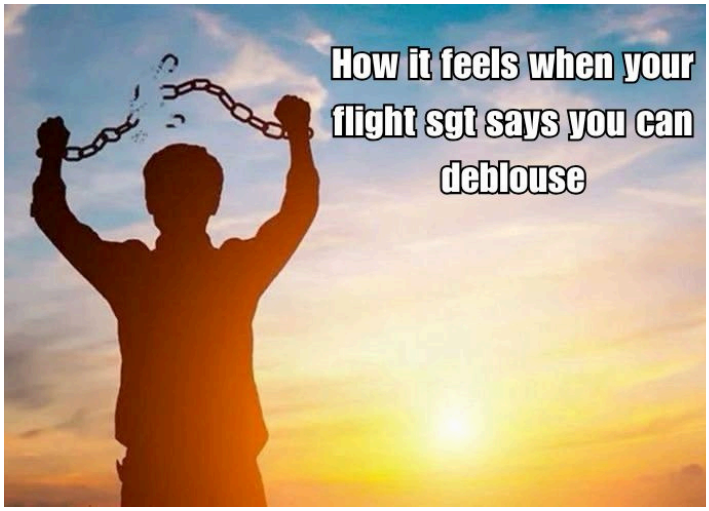

The Lockheed Martin F-22 Raptor is a single-seat, twin-engine stealth air superiority fighter with secondary strike and ISR capabilities. Entering service in the mid-2000s, it features supercruise, advanced avionics and sensor fusion, as well as an internal weapons bays to preserve stealth. The Raptor was built exclusively for the U.S. Air Force, and approximately 195 aircraft were built. It's advanced avionics, supercruise capability, and internal weapons bays are key parts of why this aircraft is so awesome.

Quote of The Day

"The secret to getting ahead is getting started." —Mark Twain

Meme of The Day

DUTY & DINING

Dining and Duty are pivotal to the entirety of Encampment each year. They are the reason students and staff get fed nutritious meals to keep them moving through the heat and stress. Make sure to really thank dining staff - both the cadets and adults, for all the long and sweaty hours that they have put into preparing every meal that you have eaten. This year we are very fortunate to have a catering team to help provide us with the delicious meals three times a day!

MSgt Dinneen has kept us safe and hydrated all week long! On Day 5, she took it to the next level and armed herself appropriately to defend us all against flying stinging combatants. The official word is that she has won the battle and we can all rest easy!
